*"Building Durable Missionaries
So They Keep on Going"*

March 2021

Dear Praying Friends:

We praise the Lord for bringing us safely through all the ups and downs of 2020 and for the good start He has given us in 2021. Each passing year gives us a greater appreciation for what is found in Proverbs 21:30, "...safety is of the LORD."

I want to begin with a report of my trip to Haiti and the time I spent with BIO missionaries Joel and Lottie Desir. It was a great blessing to see how wonderfully the Lord is blessing their labors. It was a joy to help them in their ministry as well as to encourage them personally. I was asked to preach at the God Save Haiti Conference they were holding. It was great blessing to see the large auditorium filled with people and to see a good number of souls get saved. Brother Joel also gave me the opportunity to teach the SMART Leadership Development course to the Bible Institute students and national pastors.

The day before leaving Haiti we visited another town called Saut Deau (pronounced *SoDu*); it was one of those bad news/good news situations. The bad news is that we saw all the public displays of voodoo which dominates the entire town. However, the good news is that Brother Joel has started a new church there and is seeing people saved and baptized, to God be the Glory! We thank all of you who prayed for my trip, the Lord certainly blessed.

In February there were two separate opportunities for us to teach the SMART Personal Protection Matters class. The first was held at the BIO Training Center for several of our missionaries. The second training was at a church in conjunction with their mission conference. They had requested us to hold a few daytime training classes for the missionaries who came to their conference. I want to point out that we have done this at other churches too— it is called a SMART Conference. Please see the sidebar for information on how this can be added to your next mission conference.

In closing we want to say thank you to those who hold us up in prayer and for your financial support of our ministry.

Yours in Christ,

Terry + Barbara
Terry and Barbara Childers

What is a
SMART CONFERENCE?
A SMART conference is when a church provides our daytime training class to the missionaries who come to their conference. Usually it takes four hours per day for two days. NOTE: These daytime classes do not interfere with the conference in any way.
This is an efficient way for missionaries to access SMART modules because they do not have to travel to some distant location, at their own expense in order to get this valuable training. That is because the training actually comes to them; to where they already will be, i.e. your church's conference.
Your church can choose the module you'd like us to teach your missionary guests.
Contact me if you would like to incorporate SMART classes at your next mission conference.
