Dear Friends and Partners,

If you read our last update, you'll remember that what started as a trip to scout property for a camp in Bolivia quickly turned into something much larger... an unexpected opportunity to launch two new churches in regions where the Gospel is urgently needed. Today, we're excited to share how those doors are already opening.

First, we are overjoyed to announce that the ministry at the original property is progressing with a new pastor who is dedicated to planting a church in the village of Achira. After much prayer and counsel, it's evident that this location is perfect not only for a church but also for short-term mission teams and potentially a permanent hub for ministry in the region. With housing available for a family, classroom space, guest lodging, and an auditorium, this property can be the launching point for the first church plant in Achira and beyond. The new pastor and his family are already preparing to move in and begin building relationships within the community. This is truly a long-term Gospel investment... and it's already underway!

Second, we have an important update on the urgent and unusual situation involving the pastor who is in danger due to a loan from a dangerous source. As you may recall, he offered to sign over his church property, which seats 200 people, in exchange for his and his family's safety. We were shocked by the story but felt strongly that God was calling us to take action.

The cost to secure this property is \$30,000, and we are overjoyed to share that \$21,000 has already been raised! That means we are just \$9,000 away from rescuing this property and entrusting it to a dedicated ministry team who will immediately begin using it to share the Gospel. Imagine the impact: a church saved, a family delivered from harm, and a permanent Gospel witness in a strategic location.

This is a rare and urgent opportunity. Please consider helping us bridge this gap. Whether large or small, your contribution will go directly toward purchasing the property and launching this ministry. This endeavor is not just about acquiring land or buildings; it is about redeeming brokenness and danger with the hope of Christ. Together, we can take a step of faith and trust God to provide the final \$9,000 needed to rescue one church while establishing a new one in an area without the Gospel.

To give, please send your donation to BIO, marked for the Bolivia Church project, or use the QR code to the right. Also, please continue praying for these two communities: Achira and the village of Kilometer 12, where the church we hope to rescue is located. As we boldly move forward to bring light to the darkness, together, let's be Great Commission Christians!

Serving with you in Latin America,
Jeff & Sandra Price

"If we are content to keep the light among ourselves, we have already forgotten the One who lit it."... Ellis Cooper
