September 2026

The last time we wrote we were in the middle of a very intense battle for residency, and we were rejoicing in answered prayer. Our process for residency continues to move forward, with the main obstacle now being some papers that need to arrive from the States. Please pray that the last few steps go smoothly and thank you for upholding us in this very specific need over the past few weeks.

With everything going on with residency, we were not able to plan as well as we would have liked for Children's Day, but we were glad to see how God blessed regardless. We reached out to a local school just a few blocks from our church and asked if we could come by before Children's Day and hand out invitations for our upcoming event and bags of candy to the students. Turns out the director of the school is also a Baptist (rather rare for Honduras) and was excited that a church nearby was reaching out to the area. A few hundred of the students were going to the zoo for a field trip and we were told we could come along. We had a great time getting to know some of the students, staff, and some of the parents. We were able to pass out a few hundred invitations to our church and the event.

We gave out a LOT of goodies for Children's Day!

On top of that we now have an open invitation to come by the school whenever we like and help the students practice English. We were able to do this one morning the week before Children's Day. We went to a few classrooms, practiced some English, and shared the gospel. We are looking forward to making this a weekly occurrence. I have been told that there are over 1,000 students in the school. So please pray that God would bless our efforts with the open door He has given us. We could not have planned it better.

Through our Children's Day Event we also met a family that works in the shop below our church. We were able to have some good conversation with them and are hoping to get to know them better in time.

Another area of growth we are seeing is a woman's Bible study that Amber started a few months ago. So far only one young lady has been attending, but the questions she has been asking and the conversations they have been having have gotten increasingly deeper lately. Amber is very encouraged by the growth she is seeing in this young woman and is excited to see what God will do with her life.

Through some conversations with the locals around our church, we are starting to learn more about the daily lives and schedules of the people here. Most people here work very long days, 6 days a week, and we are trying to figure out how to make things like Bible studies and midweek services easier to attend. We have some ideas, and we would appreciate prayer that God will give us wisdom and creativity as we try them.

Thank you for your prayers for us, and the Honduran people. May God bless each of you.

Serving Christ,

Andrew & Amber Garcia
